

SCHOOL ATTENDANCE DISTRICTS

School attendance boundaries shall be approved by the Lafayette Parish School Board. If applicable, boundaries and changes thereof shall comply with applicable federal court decisions and/or mandates. Prior to the adoption of school boundaries, the School Board shall conduct public hearings for the purpose of receiving input regarding proposed boundary changes. Official notice of these hearings shall be published in the official journal of the School Board and other appropriate publications.

Currently, for instructional purposes, the schools of the district shall be organized on an elementary school, middle school, and a secondary school basis. The School Board shall approve all changes in the instructional organization pertaining to grade levels accommodated in the various schools prior to implementation.

Established attendance boundaries shall be disseminated throughout the school system by means of boundary maps and written boundaries. All School Board personnel charged with admission of students shall admit only those students who reside within assigned school attendance areas and those with transfer permits.
